Subject: Public Records Request dated June 30, 2022

Ms. Pritchard, on July 6, 2022, we committed to provide responses to your public records request dated June 30, 2022 (reproduced below and referenced in your attached letter) no later than July 13, 2022, or, alternatively, would provide you with a more definitive estimate of any additional time that it may take to collect, examine and review potentially responsive public records.

After further review, we will need an additional four (4) business days, until Monday, July 18, 2022, to produce the non-exempt documents in LCG's possession that are responsive to your request. LCG reserves at all times any and all exemptions to the Louisiana Public Records Law that may be applicable.

Subject: Public Records Request dated June 30, 2022

Ms. Pritchard, your public records request dated June 30, 2022 sent to the public records request portal of Lafayette City-Parish Consolidated Government (reproduced below and referenced in your attached letter) has been assigned to me for review and response.

My preliminary estimate is that it will take an additional five (5) working days to collect, segregate, examine, review, and redact any documents potentially responsive to your request. I will make a supplemental response to your request, either with a complete or partial production of non-exempt responsive documents, or with a revised estimate of any additional time necessary to fulfill your request, no later than close of business on Wednesday, July 13, 2022. We reserve at all times the right to assert any and all exemptions that may be applicable under the Louisiana Public Records Law.

DO NOT input your username and password.

Dear Ladies and Gentlemen,

The Lafayette Parish Democratic Executive Committee is requesting public records related to the Bayou Vermilion spoil bank removal project. The project is located adjacent to the Lafayette Regional Airport on the east bank of the Bayou Vermilion. The Lafayette Parish drainage projects (as proposed by the Josh Guillory administration) were mapped by The Current, a nonprofit news organization serving Lafayette and southern Louisiana. The approximate location is shown on the map as the project named Bayou Vermilion Spoil Banks Removal on the following link:

<https://thecurrentla.com/2022/heres-a-map-of-lafayette-drainage-projects/>

Additionally, please see the attached pdf of the letter sent to Mayor-President Josh

Guillory, in which we referenced our request and stated that we will follow up with an email requesting public records.

In particular, we are requesting electronic and digital paper correspondence to and from the funding agency related to environmental review process of the National Environmental Protection Act (NEPA). We are also requesting studies or documents prepared as part of that correspondence.

We are very interested in copies (if any) of a Section 404 Wetland permit, FEMA Conditional Letter of Map Revision, Louisiana Department of Environmental Quality Water Quality Permit, and a Saint Martin Parish Drainage permit were prepared for the project.

In addition, we seek the release of the ordinance in which the Spoil Bank Project was authorized by the City and/or the Parish Council.

If a fee is required for the records, please consult the Lafayette Parish DPEC before undertaking document preparation; but note that these records are requested for public review, which traditionally no charges transpire for such request. The records received will be posted our website at LafayetteDemocrats.org/blog

Please respond to the email address as the sender in this email.

We remain,

Yours Sincerely,

Lafayette Parish Democratic Executive Committee
